Include the following information when ordering:

- Catalog product number(s).
- For all orders which require typesetting or engraving, complete the attached form and mail or fax with your order form. This step in procedure is critical to producing your order correctly and on time.
- Shipping and billing information along with your customer number.
- Date products are needed.
- Name and telephone number of person placing order.
- For trophies or plaques, indicate the figurine desired.
- Any artwork desired on an award can be supplied to MTM, or choose from a wide variety of stock art. Laser prints, faxes or copies are not camera-ready, and will require a minimum art charge of \$45.00 to ready the artwork for production. The type of file required for the method of production will vary from order to order.

How to supply your artwork

MTM prefers a vector EPS file for our manufacturing processes. Generally, this is an attachment of the artwork in the original application that it was created in. This can be obtained via the artist who created it, your HR Department, IT Department or Design Department. If none of these are available to you, we suggest contacting a Customer Care Associate for more information.

Send artwork via e-mail, DVD or thumb drive. PC is the preferred format. All artwork is subject to production approval. Non-electronic art should be "camera-ready". The art department will determine if artwork is camera-ready. Artwork may be altered for production processes. Include all font information as well as any PMS colors used. Fonts should be converted to outlines or points.

Electronic Art Logos and Graphics

We require vector artwork for production in the form of Encapsulated PostScript (EPS) files, created in Adobe Illustrator. Halftones / photographs — We require images of 300dpi or greater in JPEG, TIFF, GIF or PSD format. Text — an Excel file is the preferred format. Please use 3 columns for names (First, Middle, Last). Word is also an acceptable format.

Camera-Ready Art

MTM requires black and white artwork with very clean and crisp edges. (No fades, blends, percentages or halftones) Supplied art should be at the highest possible quality for reproduction. Logos and graphics will have to be re-drawn in a vector format (this process will incur an art charge). Text sent in this format may have to be reset (this process will incur a typesetting charge). Contact your CCA for additional information on acceptable file formats.

Copyright and Trademarks

- Copy and trademarks represented in this catalog are for purposes of demonstrating product only and do not constitute endorsement or advertisement of any company or other organization nor an endorsement of the MTM Recognition product line by a company or other organization.
- By submitting artwork, designs, or other copyrighted or trademarked material concepts for reproduction in any form, you are representing that the concept provided is either your original concept or that you have permission from the original creator to reproduce it and that it is free from potential copyright, patent, or trademark claims. By submitting a concept you are agreeing to indemnify MTM Recognition from any and all such claims that may arise from such reproduction.

Orders cancelled during production will be charged for the work completed at the time of cancellation.
